Trijicon® Pro-Shooter Taran Butler Continues To Dominate Major 3-Gun Tactical Division Events

Wixom, MI – Trijicon, Inc., sponsored 3-gun competitor Taran Butler has registered two first place finishes with outstanding performances at the Superstition Mountain Mystery 3-Gun and Larue Texas Multi-Gun Championship Events. For the second year in a row, Butler has managed to out-gun the best competitors in the nation to clinch both Tactical Division Titles.

“We’re extremely happy for Taran,” said Tom Munson, Trijicon Director of Sales and Marketing. “Taran continues to perform at an extremely high level, and we’re pleased that Trijicon has been a part of his success for a number of years. He’s been not only winning, but also doing a fantastic job of educating competitors and consumers about the advantages of Trijicon optics within the 3-Gun discipline.”

“I have been lucky to be able to pull off my 10th in a row at SMM-3Gun and my second at the Larue Tactical,” said Butler. “I truly believe my AccuPoint TR-24 provides me with a distinct advantage. It has the fastest target acquisition for this kind of action shooting. It allows me to make the long shots out to 500, and be devastatingly fast on anything closer.”
